

\$ANSER

LITEPAPER · SOLANA BLOCKCHAIN · WHITEPAPER V1.0 AT THEANSER.APP

\$ANSER is an on-chain transparency standard for Solana.

The token exists to test whether transparency has economic value.

THE SCANNER – FREE TOOL – THEANSER.APP/SCORE

Any Solana token. Instant on-chain audit. 9 metrics. No wallet. Nothing stored.

- Mint Authority revoked (25 pts – VERIFIED)
- Holder Distribution top-20 (20 pts – AMM filtered)
- Liquidity / MCAP ratio (15 pts)
- Freeze Authority revoked (10 pts – VERIFIED)
- Contract Age (10 pts)
- Token Mechanics / Token-2022 (10 pts – VERIFIED)
- Honeypot Check – cap at 15 if likely trap
- Update Authority – cap at 85 if mutable
- Creator Risk (10 pts – INDICATIVE)

Also on Telegram: @TheAnser_bot – paste any CA, get instant audit.

THE TOKEN – ON-CHAIN COMMITMENTS – NOT PROMISES

- ✓ Mint authority revoked at deploy – irreversible
- ✓ LP locked ≥ 1 year via Unicrypt – on-chain
- ✓ Creator vesting: 6-month cliff + 2yr via Streamflow
- ✓ DAO vesting: 4-year linear via Streamflow
- ✓ Self-audit published before trading begins
- ✓ No private sale. No VC. No presale pricing.
- ✓ No exchange listing without DAO governance vote.

These are contracts. The difference from promises matters.

If the live scanner returns below STRUCTURALLY SOUND (75+) at deploy, the launch is halted and the contradiction is made public.

The scanner exists whether or not anyone holds the token.

The token exists to ask whether transparency has economic gravity. That is the entire question.

The scanner is a gift. The token is a question.

ALLOCATION	%	TOKENS	CONDITIONS
Community & Public Sale	35%	350M	50M at pool open · 200M DAO-governed vest · 100M airdrop to first 2,000 holders
Ecosystem / DAO	20%	200M	Streamflow 4yr linear vest – community governance controlled
Initial Liquidity	25%	250M	Locked ≥ 1 year via Unicrypt – no rug possible
Staking Rewards	10%	100M	Gradual emission over 4 years – timeline set by DAO
Creators	10%	100M	Streamflow – 6-month cliff + 2-year linear vest

theanser.app

"The goose doesn't promise anything. That's why you can trust it."
